Matt, We're good with the draft letter. Eva and I are thinking we should invite ODEQ to the meeting that Exxon et.al. requested with EPA so we all hear their messages together (and communicate a unified message to them). Let me know if that makes sense to you. As I've mentioned to Sarah, I'm going to try to put that meeting off until we have some additional internal discussions relative to NWN's Iris memo. Also so you're aware, Travis called me today asking about the verity of "uncontrolled sources" at Gasco, so I take your asap point relative to setting the record straight. If you could send me the electronic final letter when final that would be appreciated; I plan to heavily reference it in our letter.

Thank you.

S

Subject: Draft Response to ExxonMobil Letter

Eva, Sean and Davis,

Attached is a draft response to the ExxonMobil letters. Please let me know if you have any review comments by the end of next week (ideally asap).
